#### Home Precinct Snubs Truman

Independence, Mo., Nov. 5 P-President Truman's home precinct here gave Eisenhower 197 votes to 124 for Stevenson in the presidential election yesterday.

That was almost a direct reversal of the 1948 vote. The precinct then gave Mr. Truman 197 votes to 135 for Gov. Thomas E. Dewey.

more cable means more phones

You're looking at telephone men, hard . at work installing new cable.

It's a job that never ends ... because the demand for telephone service never ceases. Day after day, the orders for more phones keep coming in for home, business and defense needs. And crews like this are kept busy installing new telephone cable in cities and towns all over New York State.

Expanding and improving telephone service is the biggest and most important program we've ever tackled. It calls not only for new cable, but for new buildings, new central office equipment and other essentials. And because of inflation it is also the most costly.

Despite these higher costs, this program is going right ahead at a record rate. It means better service and wider usefulness for all.

ALARMING TREND NEEDS REVERSAL One of the great afflictions of modern-day federal government is the creeping silence that spreads through departments and agencies and blankets information the American citizen ought to have.

World War II gave great impetus to this disease, until now it is of epidemic proportions. Military security was the great excuse for not telling the public the public's business, and the habit, once established, was never shaken off.

At times top government officials have been emboldened to suggest the department bosses should have it entirely within their discretion what to release and what not to, regardless of whether security is involved. Such a policy obviously could be designed | those members of the missions. I don't think that for only one purpose - to insulate government from criticism of its mistakes.

Fortunately, the sharp outcries of the press and others have usually been sufficiently disturbing to cause the shelving of these extreme notions. But it is still not an easy task to find out nowadays what your government in Washington is doing.

And now, in an article in the current American Magazine, we read that the infection of government silence is making inroads even in local governments. Local residents of cities are finding it difficult to get into meetings of town boards, schools boards, planning commissions, and the like.

Perhaps this should have been expected. Local officials, seeing the example of the federal government, could hardly have helped imitating the practice.

Silence in government operations is a device aimed at political security. The official who can conduct his affairs without public scrutiny will be safer at the next election. But it is a strategy destructive of the aims of democracy-which feeds upon full information. And a new administration ought to set about quickly to reverse this alarming

#### PLAUSIBLE BUT UNSOUND

A midwestern city owns its street railway, administering it through a board appointed by the mayor. Of late the service has dissatisfied many. Cars and buses are reported late, slow and overcrowded, Hence a councilman demands that the board be elected by the voters. This, they say, would make it more responsive to public needs.

Plausible as this sounds, it is impractical. The present long ballot lists all sorts of special and technical offices with whose requirements many persons are only vaguely familiar. If the transit board were added to the list of elective offices, the voters would choose the incumbents only by name. Actually they would either put X's blindly in front of names they liked, or they would support the nominees of their party without knowing them from Adam. The actual selection would be by the party organizations who made the nominations.

Official responsibilities should be centered in a few elected officials such as the mayor or governor, who can be held accountable. The rest should be appointed. A long ballot is a politician's ballot, not the taxpayer's.

#### THE BAKER AND THE CAN

The village of Massay, a suburb of Paris, will receive a scroll this year honoring a man who has been dead over 100 years. He was not a soldier, an artist, statesman, scientist, writer or inventor, yet, even though few people know his name, the effect of his accomplishment is felt today all over the world. He was Nicolas Appert, baker, chef and brewer, who discovered that food could be preserved indefinitely if it was cooked and sealed in air-tight containers.

It is appropriate to honor the memory of this Frenchman with a ceremony and a scroll. But his real monuments are the shelves of stores lined with canned goods of every imaginable kind, and the closets and shelves of homes all over the world where the fruits of the summer are preserved to be eaten when the fields are barren.

ARE THEY AMERICANS?

Americans employed by the United Nations take an oath of loyalty to the United Nations. The question then arises whether an American can take an oath of loyalty and obedience to an international body which may sit in judgment of the United States and which can vote against the United States should a situation arise.

This is the oath:

"I solemnly swear to exercise, in all loyalty, discretion and conscience, the functions entrusted to me as a member of the international service of the United Nations; to discharge those functions and regulate my conduct with the interests of the United States only in view, and not to seek or accept instructions in regard to the performance of my duty from any government or authority external to the organization.

The last line of that oath specifies that an American citizen employed by the United Nations may not be instructed by his own government; in a manner he is superior to his own government. What happens to the minds of these Americans

when Vishinsky calls Acheson a liar?
In his testimony before the McCarran Committee, Alfred J. Van Tassel, an American employed by the United Nations, protested against the hearings "because I feel they will create tremendous resentments against the United States throughout the world, by the countries of Asia, Africa and

This angered Senator Homer Ferguson who

"Do you mean to say that if a committee of the United States Senate wants to find out whether or not citizens, no matter what their jobs may be, are Communists, whether they are engaged in subversive activities, that we have no right to do it, and that other nations, our allies, will resent that?"

Now, the importance of this colloquy is that actually Americans employed by the United Nations have ceased to think of themselves as American citizens. They are international officials, They make a distinction between those who are members of missions like Mrs. Eleanor Roosevelt or Warren Austin, who may be patriots if they choose, with staff members who owe their allegiance to the international body and therefore are not free to be patriots. Van Tassel put it clearly in this language:

. . there are the individual delegations to the United Nations which represent their individual governments, and I think that the governments are perfectly-any government is perfectly on sound ground to insist upon whatever standards they choose as the measure of loyalty in selecting that principle obtains at all for the Secretariat of the United Nations, where I think the entire question is whether or not you uphold the oath to the United Nations.

Few American can understand this language. They have been reared to believe that an American owes allegiance to the United States of America and to no other country and to no other body. Yet, here is a group of our citizens who have occupationally become separated from their own peo- together as a united nation. ple. In the case of Van Tassel, a third loyalty became evident. It appears in this colloquy: 'Mr. Morris. Are you presently a member of

Communist Party "Mr. Van Tassel. I decline to state, sir, on the basis of the protection afforded by the Fifth

Every Communist is a Russian agent who owes his loyalty to the Kremlin. This is true of a Communist in every country in the world. Van Tassel does not deny that he is a Communist; his testimony, in effect, is that it will incriminate him if he denies it. As it is not a crime to be a member of the Communist Party, in the United States such incrimination can only come from perjury. Should an American hold a position in an international body of which the United States is a member, who cannot tell the truth lest it incriminate him?

As one reads the testimony before the McCarran Committee, it becomes increasingly distressing that a man like Van Tassel, whose family has been in this country 300 years, should have his view of divided loyalty. It is frightening. (Copyright, 1952, King Features Syndicate, Inc.)

HOW SCHOOL HEALTH HAS PROGRESSED When I was in the eighth grade at school, there was a competition for a prize in hygiene to the eighth grade students who had stood first in each of the city schools. As I liked hygiene, I happened to stand first and met all the competitors at the one school. I then received a shock. The examination paper, Part I, asked some of the usual questions in hygiene, but the Part II questions were on temperance, a subject on which my and other

City Schools. This is the second edition of a book that has been well accepted at the professional level for teaching school health and health education in teachers' colleges. "The activities of physicians, nurses, dentists, dental hygienists, physical educators and others who contribute to the health program of the school are described in such a way as to show administrative relationships and educational opportunities.

A great deal of information is included on the observations of the well child, the common departures from health, and the inclusion in health teaching of the attitudes and behavior that children should develop in relation to health services. It can be seen how this book could be of great

help to the teacher who recognizes that the physical, mental and emotional health of the child is of greater importance than his knowledge of reading, writing and arithmetic.

This book should be of great help to the teachers who closely watch the behavior of their pupils so that they may refer those who are not normal to the family physician through regular school health service channels, just as they send reports to the parents on the child's progress with the usual school subjects.

'I am mentioning the above book, "School Health and Health Education," published by the C. V. Mosby Co., St. Louis, because it can be so helpful to children as good health is life's greatest human asset. The book also gives some idea of how the matter of school health has progressed during the passing of the years.

At this point, many of them just couldn't accept the fact that defeat was reality. The real shock was to come.

#### Knew He Was Beaten

But Stevenson knew he was beaten. He had sensed it, an aide later said, from the time he was handed a news report that Paul Fitzpatrick, New York state Democratic - chairman, had conceded the state to Eisenhower, with its big chunk of 45 electoral

And then Col. Jacob Arvey-Illinois Democratic national committeeman - who had sponsored Stevenson's entry into politics, conceded Illinois to the Eisenhower forces. Stevenson came into a back en-

trance and walked upstairs to the ballroom. The crowd broke into cheers. They began chanting, "We Want Stevenson," and he gave them a big grin. He looked relaxed and at ease.

#### Message to General

Then Stevenson disclosed he had sent a message to Gen. Eisen-hower at his Commodore Hotel headquarters in New York city

"The people have made their choice and I congratulate you. That you may be the servant and guardian of peace and make the day of victory a door of hope is my earnest prayer."

For a few moments Stevenson stood on the brilliantly lighted platform of the ballroom, posing for the photographers and chatting with those nearby. Someone asked him, "what about 1956?" He quipped:

"Have that man's head examined.

INTHUSIASTIC ACCEPTANCE, OVERWHELMING DE-L MAND... these followed immediately upon the unveiling of Admiral's 1953 television line, just a few weeks ago. The public took one look at the amazing values, a second look at the brilliant performance, a third look at the beautiful cabinet styling-and the stampede was on!

Already production has been doubled and redoubled, and four great Admiral plants are working 'round-the-clock in an all-out effort to satisfy the nationwide desire to own these unsurpassed TV values!

#### 21" TV at 17" Price

A big factor in Admiral's 1953 value story is the new 21" Dyna-Ray picture tube, created by Admiral at a cost of more than \$250,000 for new tools and molds. Thanks to its completely new design, it fits in a cabinet inches smaller than required for other 21" tubes, and can be manufactured at a 40% faster rate.

The economies achieved by use of this tube have made it possible for Admiral to offer 21" TV at the price of a 17" set in other leading brands! You will find savings almost as striking in Admiral's 21" cylindrical tube models with 245 square inch picture, and even in the 27" screen size!

#### A Great New Chassis

Superlative performance demonstrated by the 1953 Admiral is achieved by a great all-new chassis-the "DX-53" Long Distance Chassis. Five years in development, and so powerful it produces excellent pictures even from signals 1/4 as strong as ordinary sets require. This means strikingly better pictures in all

weak signal areas—near the transmitter or as much as 200 miles out in the distant fringe area!

Those who appreciate fine engineering will note that the "DX-53" chassis is equipped with the Admiral-pioneered cascode Turret Tuner that guarantees UHF reception the simplest, most dependable, least costly way. It has a massive power transformer—not merely a rectifier tube. In fact, nothing has been spared to make these the finest performing sets available to the American public today!

#### Style and Craftsmanship

From compact table models to the imposing Regency TV-radio-phonograph combination, Admiral offers 13 basic designs in a variety of colors and finishes . . . all reflecting tasteful styling, painstaking workmanship, and the best in materials. There is an Admiral TV designed to blend with every home decorating plan -traditional, modern or casual provincial.

Flavor that chill can't kill

Here's beer that keeps its fine flavor even when served ice cold.

Balfantine Beer is deep-brewed for flavor!

Matches autumn's sparkling weather . . . the quenching flavor of cold beer!

Ballantine Beer is deep-brewed for flavor. For lightness, yes! For dryness, of course! But first, last, and always Ballantine brews for flavor-using Nature's finest barley malts, the very choicest hops, and yeast of long and honorable pedigree. The result: fine, full flavor that chill can't kill!

Serve Ballantine Beer right off the ice. Every wellchilled glass just brims with flavor!

All-weather chill range

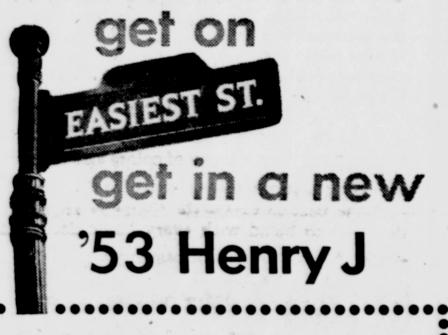

Surveys show that people like their beer cold-from 35° to 42°-all year round. Ballantine Beer is deepbrewed to hold its flavor at whatever temperature you like best.

As You Plan Defense

By OSWALD JACOBY Written for NEA Service

In planning your defense you must usually aim for a definite one who would like to go to the goal. Count the number of tricks you need to defeat the contract and look for ways to obtain that number of tricks.

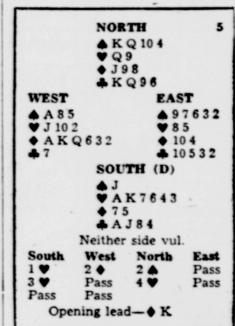

Shortly before midnight Friday In today's hand for example, West knew that he was defendtricks, but instead applied himself Due to election day, the regu- to the task of winning exactly

The thoughtless defender might continue diamonds or shift to clubs. Either play would allow declarer to make his contract.

When the hand was actually played, West saw that declarer was bound to hold the ace-king of hearts and the ace of clubs for his opening bid. It was therefore

useless to hope that East could trick, if it came at all, was bound to come from the trump suit.

After making this analysis. West carefully cashed the ace of spades, thus winning the third defensive trick. He then continued with a low diamond, forcing East to ruff dummy's jack. East rose to the occasion by ruffing with

Loving Impulse Dear Mrs. Post: Would it be proper for me to kiss my father as he turns to leave me with the groom and take his place beside mother in the front pew? is a loving impulse quickly done, it would be quite all right—but do not make a scene of it.

Girl's Obligation

Dear Mrs. Post: I have just received my engagement ring and since it quite obviously represents a small fortune, I think it should be insured because I have a tendency to misplace and lose things. I doubt, of course, that I shall be careless with this, but it would be just as well to guard against the possibility. What I want to know who insures it-my fiance or

## Roses' Names Irk Reds

Vienna, (A)-Hungary's Communist regime doesn't like the names of certain roses-they smell too much of the West. The official newspaper Szabad Nep criticized the names of roses in a public park-"Lord Rossmore, Lord Charlemont, The Duchess of Sutherland, Lady Ashton, La-dy Forst, Golden Ophelia, Pope Pius XII, Maria Theresia." The newspaper suggested they be given more "glorious" names, like "May 1, November 7, Red Star,

#### **Send Prisoners** To Camp Perry

Columbus, O., Nov. 5 (A)-Haggard Ohio penitentiary officials today began transfer of 150 prisoners to Camp Perry on Lake Erie following collapse of a million-dollar prison riot. The melee brought death to one convict and wounds to four others and a state highway patrolman.

While buses were getting ready for the trip to Camp Perry, prison guards shook down the 1,600 holdout convicts who surrendered late yesterday inside beleaguered

cellblocks G, H, I and K. The transfer to Camp Perry will be the largest movement of in-2 mates in the prison's historyeven larger than the one in 1930 when a fire killed 320. The movement will give Warden Ralph W. Alvis a place to put "hard core" prisoners while broken cell locks are repaired.

#### Search for Weapons

Guards lined up the sullen holdouts in the prison courtyard, near the shells of four burned-out buildings. The convicts were searched for weapons-lead pipes, knives and other traditional makeshifts of the big house.

The prisoners were out of control from Friday evening until their surrender yesterday.

None of the 600 to 800 prisoners Alvis eventually plans to send to the National Guard post near Sandusky on Lake Erie will be from the 1,600 convicts who caused the most trouble. Those to be moved under guard by bus will be the "best" among the prison's 4,736 inmates.

When Pershing got back to Chaumont he sent a memo to the press section deploring the fact that American soldiers didn't hate the Germans and inviting cooperation to improve this fault.

Few of us understand that social security, disguised as a system of pensions for decrepit senior citizens, is also a trick to let the federal government control the pubic school system, dietate the thoughts which must be taught rising Americans, forbid the teaching of other thoughts and advertise "democracy" as the official Godless religion of the nation.

In Germany, old Ludendorf, a stout pagan, preached faith in the German soil as a holy patch from which the Germans absorbed spiritual rays or impulses, and Hitler made national socialism, or nazism, the state religion.

This democracy of ours has many points of similarity. A German who sneered at nazism went to a concentration camp and lost his job and business and his family suffered. There are Americans today who are afraid to speak freely on the phone, and to say that you detest democracy is to look for trouble. Democracy is almost, if not quite, the state religion, but there is no official definition of democracy. It is hard to avoid blasphemy or sacrilege when every school teacher is the class theo-

#### Kidnaped

Lahore, Pakistan (A)-Amazed police of Iyallpur district have reported the case of a man who abducted his own ex-mother-in-law. According to testimony, the man decided to use force in obtaining the return of his divorced wife. He gathered several well-armed friends, rode with them to his former wife's home, and demanded her return. But her mother said the ex-wife was not there. So, he grabbed his mother-in-law, the report stated, and forced her onto the back of his horse, and galloped away. Police are still searching for her.

## Red Barber Will Address Annual KHSAA Banquet on December 11

## **Brooklyn Dodger 'Voice' Returns** For Second Year

Set Attendance Record Here Last December

Walter "Red" Barber, famous radio and TV voice of the Brooklyn Dodgers, will address the Kingston High School Athletic place tie. If Beacon were in the league. Association banquet on Thursday, Dec. 11, Coach G. Warren Kias announced today.

Arrangements for the appearance for the second straight year of the Columbia Broadcasting System's sports director were completed by Clarence S. Rowland, president of the Board of Education.

In his first appearance before the KHSAA dinner last December, the "Old Redhead" attracted more than 550 persons for the largest attendance in the history of the dinner.

The KHS athletic director pointed out that Barber does not make any public appearances for functions like the KHSAA banquet. And that is the only one he has committed himself to for the past two years.

"Barber was greatly impressed with the athletic spirit and setup in Kingston," Kias said, "and readily accepted our invitation to

And Coach Kias might have added that Barber's appearance here is a solid tribute to the long standing friendship between the ace sportscaster and Clarence Rowland. Repeated attempts by the Kingston Athletic Association to lure Barber here in the past always drew polite but persistent regrets from Barber.

Michigan State Scored Quickly Michigan State scored against Syracuse this season when the game was only three seconds old. The Spartans tackled Syracuse's Bob Lederman in the end zone on the opening kick-off.

Newburgh Academy, beaten by Beacon for the first time since the 1950 Thanksgiving Day clash with Kingston, might rebound vigorously against the Maroons this Turkey Day. They might conceivably whip the Burkemen, but the locals still would have a first

Beacon authorities a long time ago said that the DUSO was too strong and they were going to join another conference. They missed the boat, it seems. The Beacons hold victories over Poughkeepsie and Newburgh, an accomplishment that would have put them well on the road to a DUSO title.

As usual, in a tense, hard fought battle there were some interesting reactions. According to "Bo" Gill, the NFA athletic director, C. Everett Stevens, was in a cold sweat about 1:40 p. m. when Beacon arrived by bus for the 2 p. m. contest. It seems the Beacons decided

to dress at home and ride across the ferry in full regalia. Coach Jim Gauriloff of Beacon apparently wasn't overawed by Newburgh's early season record.

"They haven't played anybody. . . . They play schools smaller than they are. . . . They aren't fast. . . . " he needled the NFA adherents from the sidelines. Mike Scoba, assistant coach charged that Newburgh used the illegal flying wedge on kickoff formation. Sounds like the foundation for a spirited gridiron rivalry between two neighbors on opposite sides of the Hudson River. But no such luck for Newburgh. Saturday's game was the first and last football meeting planned between the two

New York, Nov. 5 (A)-Fred Saigh and Bill Veeck, rival owners of the St. Louis Cards and Browns, respectively, haven't seen eye to eye on many things during the past season. Both, however, are in accord on one point. They believe their teams should share in the television receipts from

# Get Anti-Stalling Esso Extra Gasoline

FOR FAST STARTS ... QUICK WARM-UP

Anti-Stalling is another big reason Esso Extra performs best in 9 out of 10 cars all year 'round

Here's a new experience in gasoline performance . . . starting power that gets your engine going at a touch and keeps it going.

The only gasoline made to combat cold engine stalling . . . Anti-Stalling Esso Extra is also famous for quick starting, fast warm-up, high anti-knock power and long mileage. Try a tankful today for real Happy Motoring. Find out why more motorists use Esso Extra than any other premium gasoline in the area served by Esso Dealers!

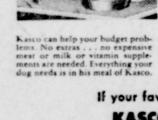

While you're at your Esso Dealer's let him give your car a complete lubrication and careful check-up for the cold weather driving ahead.

Detroit's Automotive Engineers say that cold-engine stalling has been a persistent problem for years. Under certain conditions, powerful gasolines required for today's high-compression engines evaporate and freeze moisture out of the air, "icing up" the carburetor and causing temporary stalling. This stalling is practically eliminated by the new Esso Extra Gasoline. (No gasoline, of course, can correct stalling caused by mechanical faults or electrical failure.)

PLEASE DRIVE CAREFULLY . . . THE LIFE YOU SAVE MAY BE YOUR OWN!
